

The figure is a scatter plot with 'Height' on the x-axis and 'a' on the y-axis. The x-axis has major ticks at 5.0, 5.2, 5.4, 5.6, 5.8, and 6.0. The y-axis has major ticks at 0 and 1.0. A vertical dotted line is positioned at Height = 5.5. The data consists of numerous blue circles, all of which are located on the x-axis (where a = 0). These points are distributed across the height range from approximately 5.1 to 5.8, with a higher density between 5.2 and 5.6.

The figure shows a plot with 'Height' on the x-axis, ranging from 5.0 to 6.0. A vertical dotted line is positioned at Height = 5.5. The data points, represented by circles, are clustered between Height 5.4 and 5.6, with a higher density around the 5.5 mark.
